PROFILE

A limitless learner, moved by studying new technologies & their applications. Am a self-taught Programmer. I roll in Python, Django, Laravel and Javascript. I have a perfect understanding of MySQL database. Coding is mind-blowing! Am also a Networks engineer with skills in Network design and configurations. I possess wordpress and virtualization skills.

CAREER OBJECTIVE

To be a dynamic, practical, innovative and resourceful professional in providing information technology solutions for modern enterprises, through pursuing of relevant academic courses and professional industry certifications in order to attain a sound theoretical grounding in information technology concepts and gain a thorough understanding of vendor specific technologies, their appropriateness for different scenarios and sound strategies for implementing IT solutions.

EDUCATION

Maseno

2014-2018

I studied a Bsc. IT in Maseno University. I undertook Cisco training (Routing & Switching, and WAN technologies), Virtualization classes & Server operations (Linux and Windows) during this period.

Jamhuri High

2010-2013

I went to Jamhuri High School for Secondary School Education, sat for KCSE in 2013 and scored a B+ (72 points).

Heidemarie Primary

2002-2009

I went to Heidemarie Primary School for Primary School Education, sat for KCPE in 2009 and scored an A- (385 marks).

COURSES

Bsc. IT

2014-2018

Maseno University

Programming | Networks | Virtualization | Servers

Cisco

2015-2017

Maseno University

Routing & Switching | WAN Technologies

EXPERIENCE

Programmer

Zalego Institute

November 2018-Present

I am a programmer and code instructor at Zalego Institute. I develop full systems for clients and train students on programming technologies specifically Python and Django framework. The students come up with project ideas towards the end of their training and as their instructor, I guide them in developing and implementing their project ideas.

Networks Intern

ILU

June 2018-August 2018

I was a Networks intern at ILU for 2 months. During this period, I troubleshoot Networks related issues, designed a new Network topology, set up a NAS (Network Attached Storage) server for centralized storage within the University's network and assembled & repaired faulty computers.

Hackathon

Maseno University

September 2017

Health-IT Hackathon. A 3 days event held by the University of Nairobi (UoN) Health-IT Department in collaboration with Maseno University. The event exposed me to existing Health systems such as DHIS2 and its applications and shortcomings in its application. We worked in groups for 3 days to solve problems facing the Health sector in Kenya using technology.

Java

PORTFOLIO

Personal Page

I designed a basic personal page to display my details as well as my Resume using HTML & Bootstrap. Check it out:

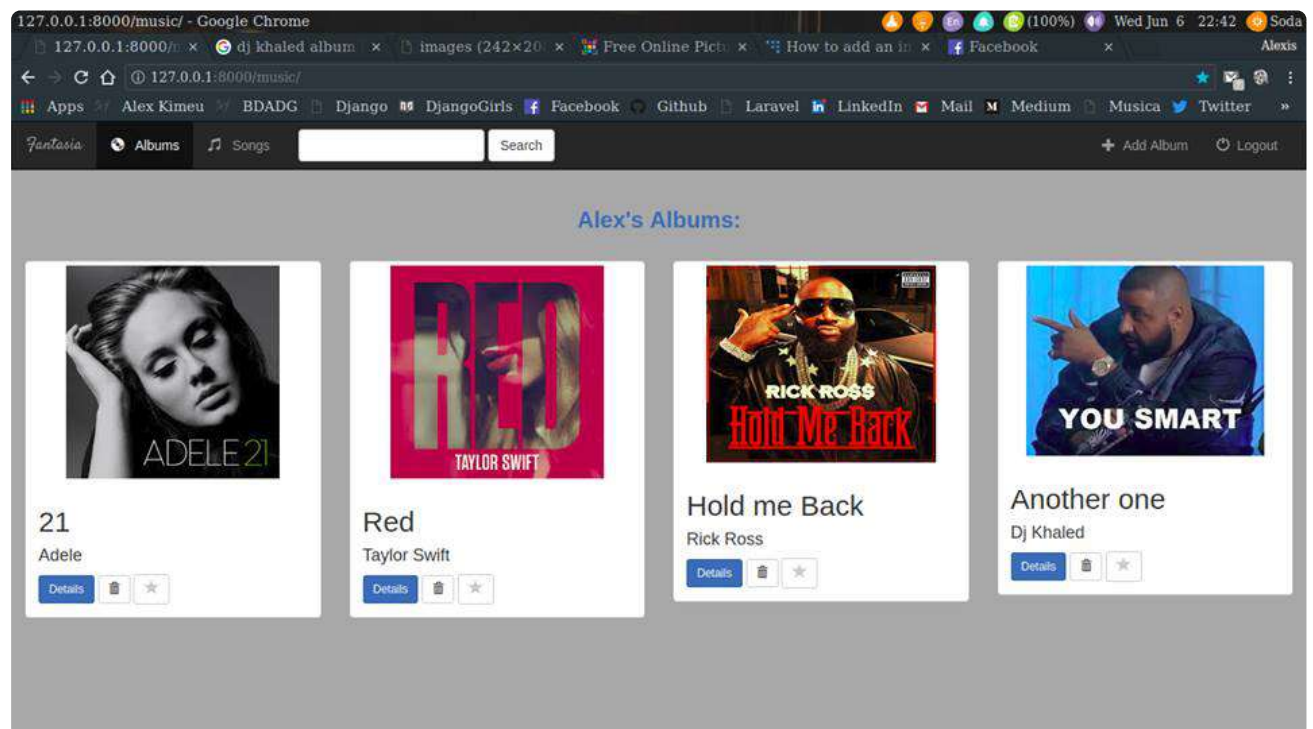

[Alex Kimeu](#)

Trap

I developed a music website where users can upload their favourite songs & play them online. Created in Django. Check it out:

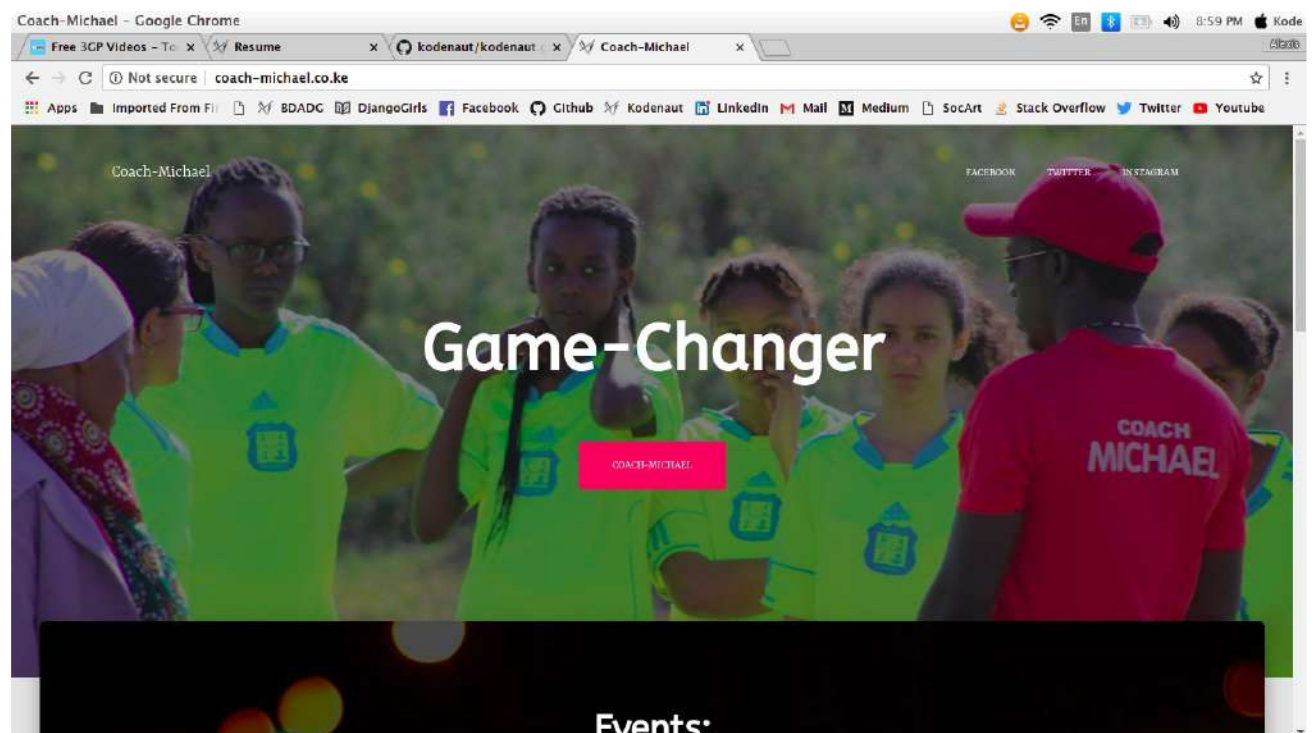

Trap

Wordpress

I created a wordpress website for Coach Michael to show case his activities and events & for blogging purposes. Check it out:

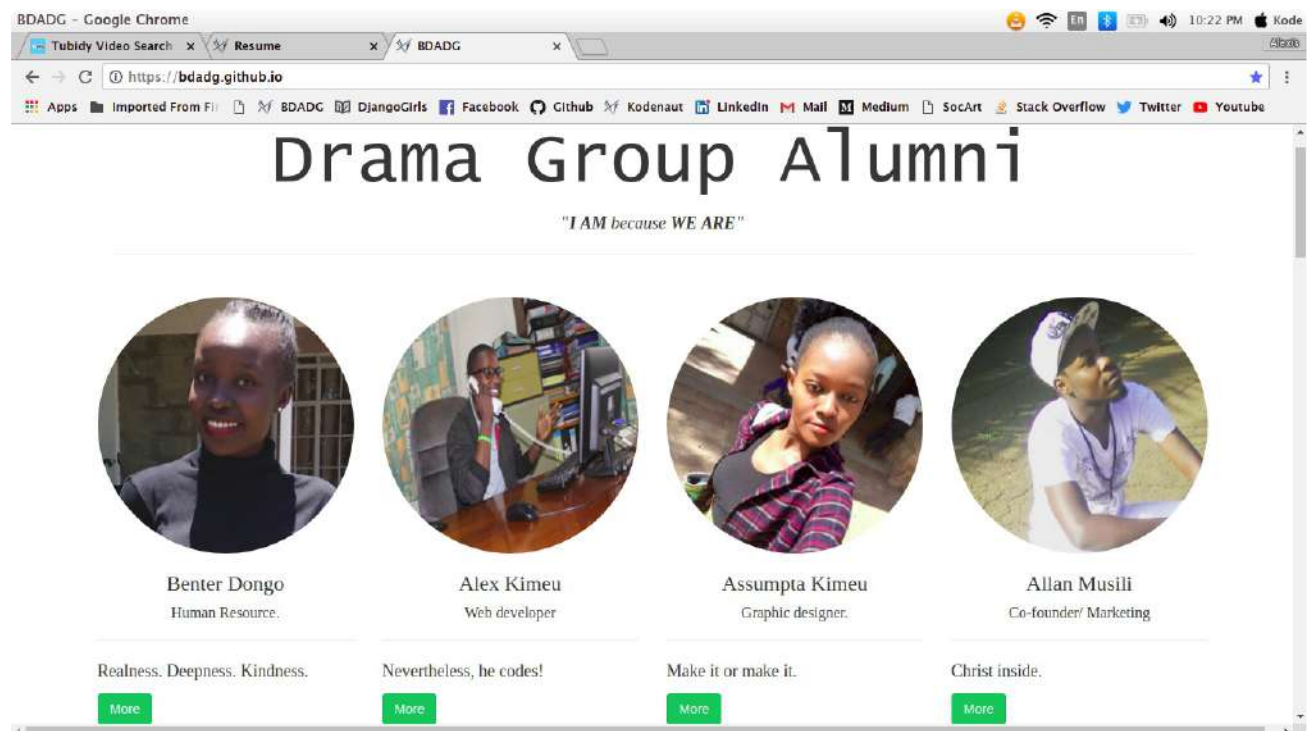

Coach Michael

Drama

I created a profiles page for my childhood Drama Group Alumni members to display their bio & their achievements. Created in Django. Check it out:

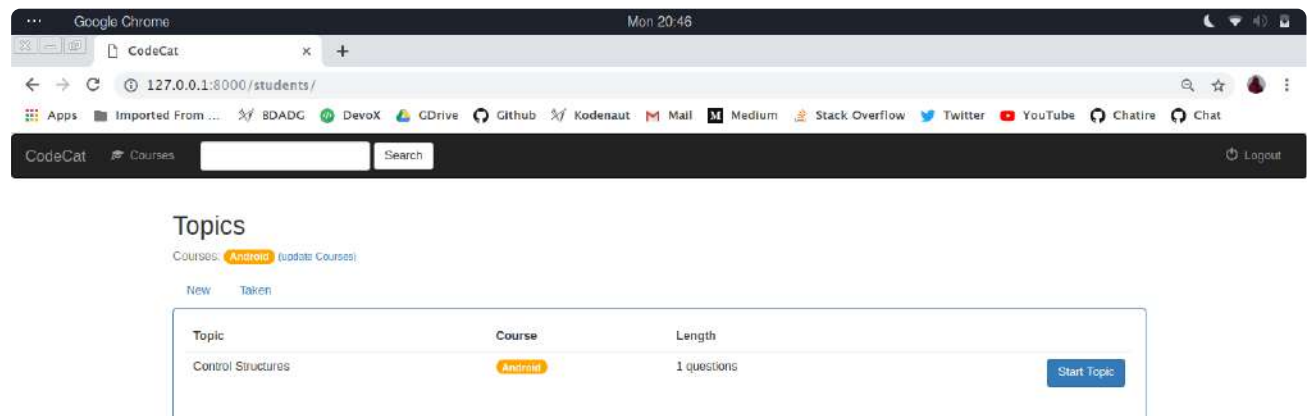

[BDADG](#)

Codeline

I created an online test administration platform. Instructors set test while students undertake them and the system grades them. Created using Django & Bootstrap. Check it out:

[Codeline](#)

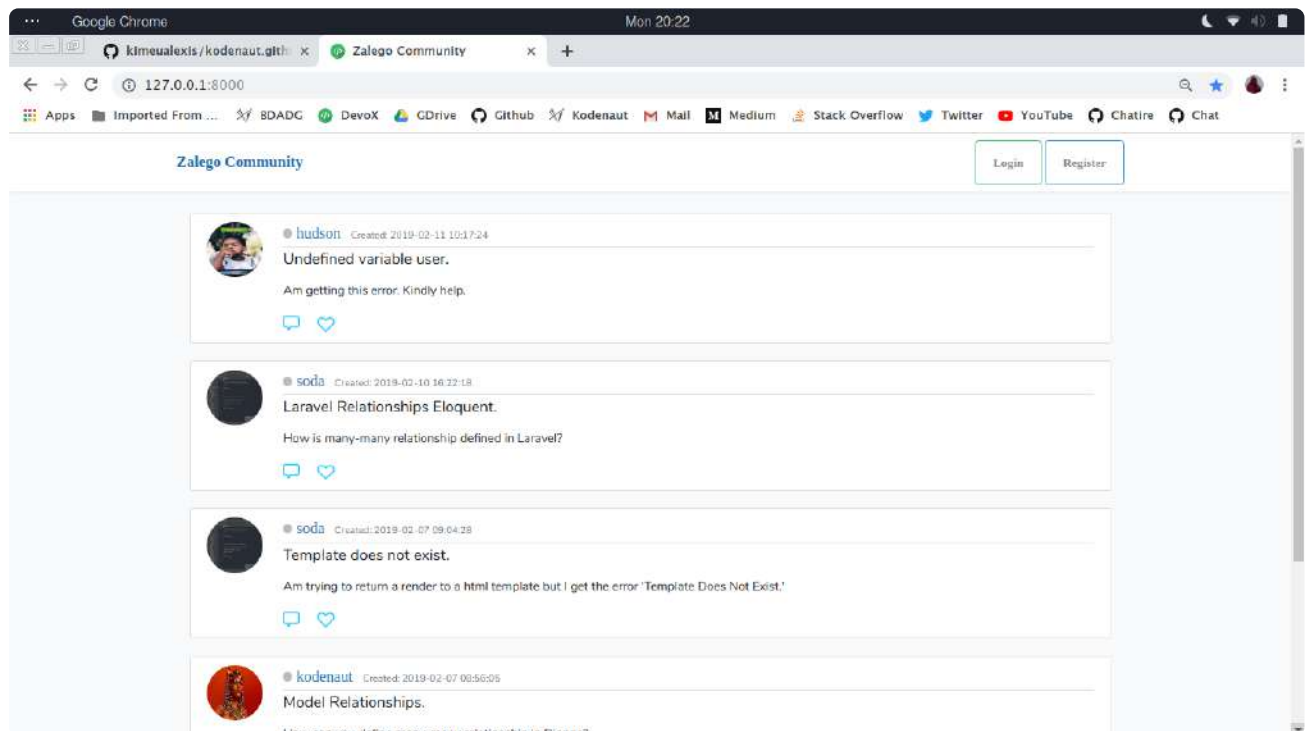

Zalego Community

I created a Developers' platform while at Zalego. Programmers can post issues they encounter while programming and

help each other sort out the issues. Created in Laravel. Check it out:

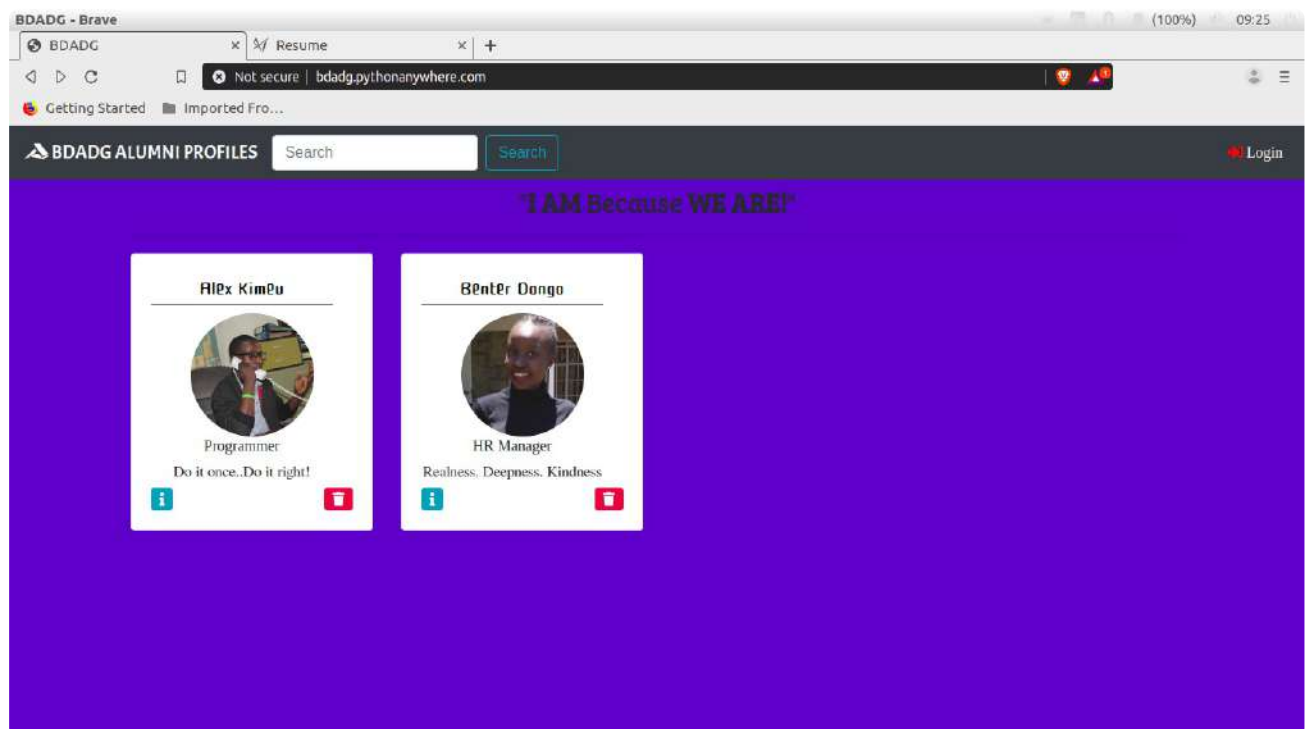

Zalego Community

BDADG Profiles

I created a simple profiling platform for BDADG Drama Group. Members can create their profiles and update them. Created in Django. Check it out:

BDADG

♥ HOBBIES

Watching Tech Documentaries

Community Service

Playing Football

LANGUAGES

Swahili - Highly proficient in speaking and writing

English - Highly proficient in speaking and writing

French - Basics

EXTRA-CURRICULAR ACTIVITIES

Volunteer at BDADG

BDADG

2014-2018

I was involved in voluntary activities as a member of the Big Dream Africa Drama Group. These activities included: Visiting children homes & special schools, cleaning hospitals & schools and facilitating teaching of High School students during their Holiday periods.

Student at IYF

IYF

*2015 - **

I received Mindset training that helped me develop a strong heart that can overcome challenges that come my way. I also got an opportunity to interact with youth from all over the world and learned a lot through cultural exchange.
